

OSAP PERFORMANCE INDICATORS 2014-15 Reporting Year

- Common methodology has been used for the calculations for all program-related information provided by colleges. For example, graduate employment rates for college graduates are based on surveys conducted six months after graduation, whereas university graduate employment rates are based on surveys conducted two years after graduation.
- The data is effective as of April 2016, and will be updated annually.
- The Approved Program Sequence Code (APS) is a number assigned for each approved program by the Ministry of Training, Colleges and Universities.
- Reports for previous years can be found as follows: [2013-14](#) and [2012-13](#)

Program Name	APS Code	Ontario Student Loan Default Rate *			Graduate Employment Rate **			Graduation Rate

<i>The General Arts and Science, Preparatory and Pre programs are frequently used by students who lack academic standing in specific subject areas required by their desired programs. They enroll to achieve entrance requirements for the programs listed above. For this reason, performance indicators may appear low as students may progress after completing the entrance requirements of their desired programs.</i>
