

January 15, 2019

Supply Chain Management Association Ontario (SCMAO)* and Conestoga College have reached an agreement that will provide an efficient path for graduates of the school's Post Graduate Certificate in Supply Chain Management - Global program to pursue their Certified Supply Chain Management Professional (SCMP) designation - at a faster, discounted rate.

Today's global market demands skilled practitioners to support the management of complex supply chains. SCMAO's Designation Program meets this need and equips those seeking to launch or accelerate their career with the necessary skills to work at a management or executive level.

Many designation holders find having the designation helps them progress within their career and contribute at a strategic level within their company.

Starting and completing the SCMP designation program was my most rewarding accomplishment, both professionally and personally. I've had the opportunity to learn so much about Supply Chain - from Operations to Logistics to Knowledge Management, in both private and public sectors. The hands-on workshops really opened my lens to understanding and appreciating real life work challenges, accepting ways of working in many cultures, and improving my confidence in effectively influencing communication styles. I was able to leverage my learnings, develop my business case writing skills, and apply a strong change management approach to each and every initiative I've worked on in real life. Being a mom of two, a teenager and a toddler, this program was flexible enough to allow me to be able to find balance with both my personal and professional life. Two months after graduating from the program, I was offered a 20% salary increase and immediate growth in my career -from Specialist to Manager. I'm now ready to move on to my MBA whereby the SCMP program is recognized as a professional criterion. I'm excited to continue the learning journey and to continue to wear the honour of the CSCMP designation for life.

Salisha Pacci one, Strategic Sourcing Specialist, Shared Services West

About SCMAO: The Supply Chain Management Association (SCMA) is Canada's largest association for supply chain management professionals. We represent 7,500 members as well as the wider profession working in roles that cover sourcing, procurement, logistics, inventory, and contract management. SCMA sets the standards for excellence and ethics and is the principal source of professional development and accreditation in supply chain management in Canada. Supply Chain Management Association Ontario (SCMAO) awards the Certified Supply Chain Management Professional Designation (CSCMP) under authority of provincial legislation.
